

CLAMPING RING CONNECTION:

For carbon steel version:
Clamping ring for 3mm tube construction, galv.
with mastic sealing compound No. 11xx2383

For 304 stainless steel version:
Clamping ring for 3mm tube construction, galv.
with mastic sealing compound No. 11xx2383

For special versions with clamping ring of
material: 304ss at 1mm and 2mm:
Clamping ring for 3mm tube construction with
mastic sealant

Attention!

The clamping ring is pre-assembled
at the factory, so that the
components for the assembly remain
loose for adjustment. When installed
in its final state, the clamping ring
connection **MUST** be secured before
operation!
